SOFT GRID CUSHIONS FURNITURE / LIGHTING / ACCESSORIES

Anderssen & Voll on the design "The unique quilted look and grid-line structure is achieved through a special knitting process, designed solely for this project, where two layers of fabric are knitted simultaneously with a filler-yarn in between. The pillows thus become elements of structure and colour that will contrast and complement your furniture, instantly providing an elegant upgrade to whatever sofa you may have."

PROCESS

Two layers of fabric are knitted together with a filler yarn in between. The cushions are filled with 60% feathers and 40% PES-bullets.
