

Sempé w103

SEMPÉ W103B / W103C

TECHNICAL INFORMATION: Light source: 8 W LED
 Light source included
 Colour temperature: 3.000 K
 CRI: > 93
 Lumen: 600
 Lumen/ W: 75
 LED Life-time: 50.000 h

MATERIAL: The Sempé w103b/ w103c shade is manufactured from aluminium and mounted on a steel arm. The base is made of cast iron whilst the clamp is made of steel.

WARM WHITE LED WITH OPTICAL LENS:

The light technology is based on an energy-efficient, high quality, LED solution which gives a warm white light.

GLARE-PROTECTING REFLECTOR CONSTRUCTION:

The shade acts both as glare-protection and as a reflector. The light is projected into the shade giving a smoothly and pleasant indirect light.

MULTIPLE MOUNTING OPTIONS:

The fixture can be mounted in three different positions/angles on the base.

The three different mounting positions/angles are as well available on the clamp version.

ADJUSTABLE SHADE:

The shade can be adjusted 166° (+/- 83 degrees) around its horizontal axis.

PACKAGING:

SEMPÉ W103S

TECHNICAL INFORMATION:

Light source: 6 W LED
 Light source included
 Colour temperature: 3.000 K
 CRI: > 93
 Lumen: 700
 Lumen / W: 93
 LED Life time: 50.000 h

MATERIAL:

The Sempé w103s shade is manufactured from steel. The hook for rail mounting is made of aluminium while the rail is extruded in aluminium.

WARM WHITE LED:

The light technology is based on a highly energy-efficient, high quality, LED solution which gives a warm white light.

GLARE-PROTECTING SHADE AND DIFFUSER:

The shade protects from glare while the diffuser gives an evenly distributed light.

DIMMABLE:

Each shade has an integrated, dimmable, electronic driver that enables dimming from an external dimmer. For example a wall dimmer.

COLOURED INSIDE:

Using LEDs to project the light directly downwards, the shade is not used as a reflector. This gives the option of painting the inside of the shade in the same colour as the outside, without destroying the quality of the light outside. The result is a beautiful and at the same time, playful effect as a small amount of light lights up the coloured inside of the shade.

RAIL MOUNTING:

Any number of shades and any combination of the seven single shade colours, can be mounted onto a black or white straight rail. Two or three black shades on a black rail and two or three white shades on a white rail are available as standard articles. Various colour combinations and amounts of shades are available, made to order.

HEXAGONAL RAIL:

A combination of shades in the colours sulfur yellow, beige red, coral red, reed green, silver grey and deep black, mounted on a hexagonal-shaped black rail is available as a standard article. Any combination of the seven single shade colours (Sempé w103s1) mounted on a black or white hexagonal rail are available, made to order.
